# Urban Street Art

**BY GARY CHRISTIANSEN**

These are images of urban street art from California, Canada, Belgium, and France. Most images are archival digital prints from 35mm Kodak Ultra Color 400 film. Some are bolted to metal and wood. There are many people in this world that are needlessly left behind. Renegade street writers/artists walk the fine line between art and crime and many are just saying “I am somebody” or “I am alive.” These images are here on our streets. What I am trying to do is capture the underground and its irreverence and spin it on its head, focus on small parts of a bigger picture and incorporate some of this imaging into a visually successful and appreciated art form.
